THE STORY AND BOOK OF VIRTUE

THE STORY OF VIRTUE

CHAPTER 1 - 3

• From its inception VIRTUE, Inc.'s origins have been in Fundraising, with the hope to mature into a viable resource for the community. Ample contributions to the families are made but the dream was for giving to not only be substantial but sustaining.

CHAPTER 4 - 7

• VIRTUE was ushered into her time of Residential Services. During which she was able to provide Residential Treatment for adolescents.

CHAPTER 8

• As years progressed VIRTUE was able to provide services for adults. Among those were Cap Services/Wrap Around services, and Supervised Living/Group Living Moderate

CHAPTER 9

• Having experienced both the Adolescent and Adult populations VIRTUE was led to combine knowledge and experience and seized the opportunity to become what was the proudest service in becoming a Child Placing Agency providing Therapeutic Foster Care.

CHAPTER 10 - 11

Emotional Devastation and Loss of immeasurable magnitude

• The dark years are times we choose not to dwell on except to say VIRTUE made the choice to pause operations to attend to the needs of our Mother at home during almost a year long coma that ended in her death. We are grateful and thank God that he welcomed back home one of his angels (RIP).

CHAPTER 12

• Attempts to return to the service we were most passionate about (Therapeutic Foster Care) found us up against an insurmountable wall. VIRTUE was unable to return to our hearts desire despite assurances made and to due to being swept into the wave of New Providers.

CHAPTER 13

• We felt equipped having weathered such seemingly insurmountable storms service delivery within Mental Health can bring. We began providing Diagnostic Assessments, Intensive In Home Services, Community Support Team and Outpatient Therapy.

CHAPTER 14

• Throughout the Mental Health chapters of VIRTUE Inc.'s life there has been moderate grassroots fundraising and awards but not to the degree she was created for. With this in mind a laborious decision was made not to pursue CABHA but to continue service provision on a much smaller scale. Becoming Endorsed by Partners (formerly Pathways) on June 13 to provide Substance Abuse Services (SAIOP & SCOT), shortly thereafter Pathways became Partners and the onslaught of MCO requirements began. The promise of reciprocity from Pathways to Partners was abandoned. Meaning the process completed and endorsed on the June 13 would have to be repeated on June 26. This action solidified that the trust to remain in Mental Health was not well placed, prompting a long overdue hiatus from MH/DD/SAS service delivery.

CHAPTER 15

• As VIRTUE, Inc. enters her next chapter we embark upon a vision to return to our roots of giving back. Stay tuned for all the grass roots efforts that have always been the heartbeat and breath of this organization. 2015 promises to be the beginning of an era of giving back substantially from a place of VIRTUE

THE END TO BEGIN AGAIN...
